ROP BP 4231.5

Classified Personnel

PROFESSIONAL GROWTH PROGRAM

The Governing Board recognizes that accomplished, professional classified personnel are essential to the success of the ROP. Professional growth is the continuous, purposeful engagement in study and related activities to retain and extend high standards of performance on the job.

The Professional Growth Program for classified personnel of the ROP has been designed to encourage classified personnel to continue to grow professionally by providing financial incentives to staff who successfully complete professional growth requirements.

Adopted: August 22, 2001
