

EMERGENCY MEDICAL TECHNICIAN

Course Code: 51400

Description:

This Emergency Medical Technician Training Program is designed to meet the requirements of Title 22 of the California Code of Regulations and the National Standard Curriculum for certification as an EMT. The staff of the EMT program is comprised of professional EMTs, paramedics, firefighters and nurses with years of field-related experience that are still working in their respective fields. Students who successfully complete the course will be prepared to render basic life support to patients in emergency conditions in the pre-hospital and emergency room environment. This basic course includes the theory and practice of patient assessment, advanced first aid, airway management, medication administration, emergency childbirth and cardiopulmonary resuscitation with the use of limited equipment as it applies to the ill or injured at the scene and during transport to a general acute care hospital. As part of instruction, this course reinforces skills in reading, writing, speaking, listening, and mathematics and requires their application in workplace situations. Integrated throughout the course are career preparation standards, which include communication, ethics, interpersonal/team skills, critical thinking and problem solving, safety, technology, and other employment skills. Students are given opportunities to demonstrate personal qualities, including responsibility, self-confidence, and self-management.

Additional Information:

[Registration](#) for the spring semester (February 2 – June 11, 2009) will begin in January 2009. Completing students must be 18 years of age or older to be eligible for the required NREMT (National Registry of Emergency Medical Technicians) certification exam, and apply for [Orange County EMT certification](#). In addition to classroom hours, students will be required to attend a minimum of 24 hours of clinical rotation hours through approved ambulance companies and local emergency departments.

[Contact us](#) if you have further questions of the EMT Program.
